Share ideas

The screenshot displays the Microsoft Great Ideas application interface. On the left is a dark sidebar with navigation icons for Activity, Chat, Teams, Meetings, Call, Files, Great Ideas, and a bottom section with Apps and Help. The main area has a top bar with 'Great Ideas', 'Chat', 'All Ideas', and 'About' tabs, along with a search bar and an 'Add new' button. Below this is a grid of idea cards, each featuring a title, a category, a description, tags, and the author's name with a like count.

Idea Title	Category	Description	Tags	Author	Likes
Monitoring System for WHO Hand Hygiene compliance	Personal Hygiene and Protection	SARS-CoV-2 is detectable in aerosols for up to 3 hours, on copper up to 4 hours, up to 24 hours on cardboard, and up to 3 days on plastic and stainless steel. As SARS-CoV-2 stays	Tag 1	Daniela Ford	0
Deep Learning framework for early detection of infection	Medical Systems - Diagnostic	The two major challenges in diagnosing people with COVID-19 are that symptoms can take up to 2 weeks to show up and the limited number of test kits available in the country.	Deep learning algorithm, Diagnosing	Liv Grefin	235
Symptom Detection and Early warning and Precaution system.	Screening, Testing & Monitoring	The individuals who spread COVID-19 are not the ones with severe symptoms, rather it's the asymptomatic - people with no symptoms but could spread the virus when they come in	Diagnosing, Precaution, Testing	Daniela Ford	558
Identify and track people who contacted infected people or visited...	Remote Work & Remote Education	Once a person is diagnosed with COVID-19 he/she is questioned on who all has had close contact with them, so that they too can be tested for COVID-19. Currently, this is	Screening, Testing, Monitoring	Marie Beaudouin	1049
Working from home during COVID-19	Remote Work & Remote Education	Over the coming weeks, many employees who typically work on a Microsoft campus may be working from home in response to the coronavirus (COVID-19). The following resources can help you stay connected and productive while	Monitoring, Diagnostic, Testing	Albart Abbot	2.4k
Monitoring System for WHO Hand Hygiene compliance	Stabilizing Affected Businesses	The two major challenges in diagnosing people with COVID-19 are that symptoms can take up to 2 weeks to show up and the limited number of test kits available in the country.	WHO, Diagnostic, Monitoring	Chris George	1.2k
At-Home COVID-19 Testing Kit	Personal Hygiene and Protection	The individuals who spread COVID-19 are not the ones with severe symptoms, rather it's the asymptomatic - people with no symptoms but could spread the virus when they come in contact with others.	Testing, Protection	Liv Grefin	893
Cost-effective Thermal Scanning	Screening, Testing & Monitoring	Once a person is diagnosed with COVID-19 he/she is questioned on who all has had close contact with them, so that they too can be tested for COVID-19. Currently, this is being done manually and is prone to errors.	Monitoring, Diagnostic, Testing	Albart Abbot	2.4k
Best of programs and resources for mental and emotional wellbeing	Remote Work & Remote Education	We've curated a list of great information and assets available for taking care of your mental and emotional health to help you manage stress and anxiety during this uncertain time.			
Storage Kits to collect test samples from homes and transport it to...	Medical Systems - Diagnostic	The two major challenges in diagnosing people with COVID-19 are that symptoms can take up to 2 weeks to show up and the limited number of test kits available in the country.			
Remote consultation for self quarantined patients	Remote Work & Remote Education	The individuals who spread COVID-19 are not the ones with severe symptoms, rather it's the asymptomatic - people with no symptoms but could spread the virus when they come in			
Novel Screening of COVID-19 infected personnel at public places	Screening, Testing & Monitoring	Once a person is diagnosed with COVID-19 he/she is questioned on who all has had close contact with them, so that they too can be tested for COVID-19. Currently, this is

Evolve how your people work, with the tools they need

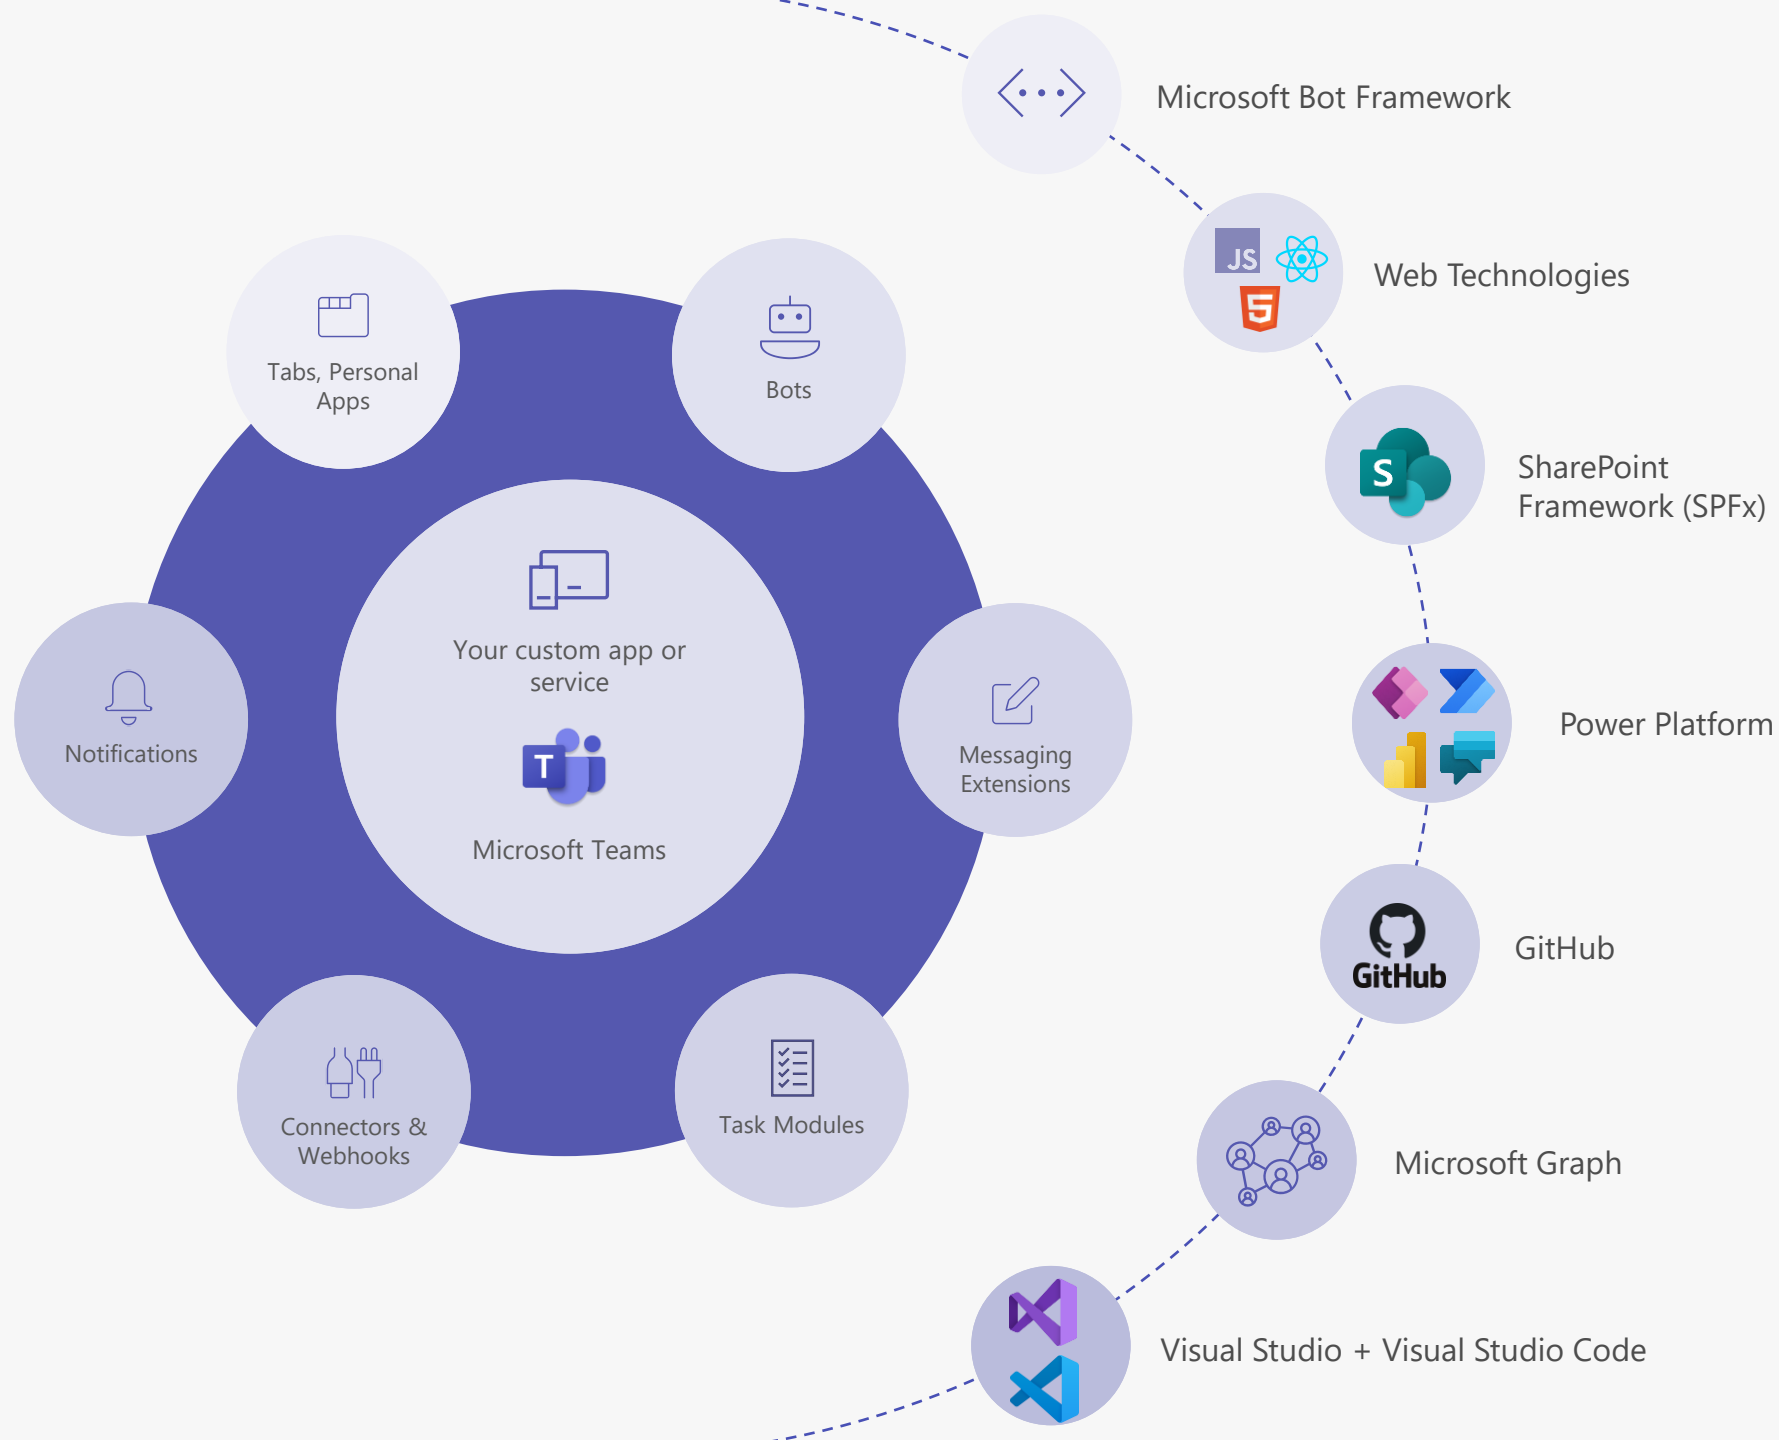

Existing Applications

New Applications

Build custom apps on Microsoft Teams to meet your unique needs

Teams provides a powerful and extensible platform

Build apps using capabilities and entry points to empower your users in chat, channels, and personal workspace

Tabs

Surface rich content within Teams

Bots

Help users get tasks done in conversations

Messaging extensions

Allow users to query and share cards in conversations

Notifications

Post updates to channels via connectors

Connectors & Webhooks

Connect web services to channels and teams

Task modules

Initiate and complete tasks or display information

Microsoft Graph

Power your apps using Graph. Build intelligence and connect to data that drives productivity

Distribute and manage your app

Enterprise Developers

Upload to your organization's app catalog

ISVs Partners

Publish to Microsoft AppSource and the Teams app store

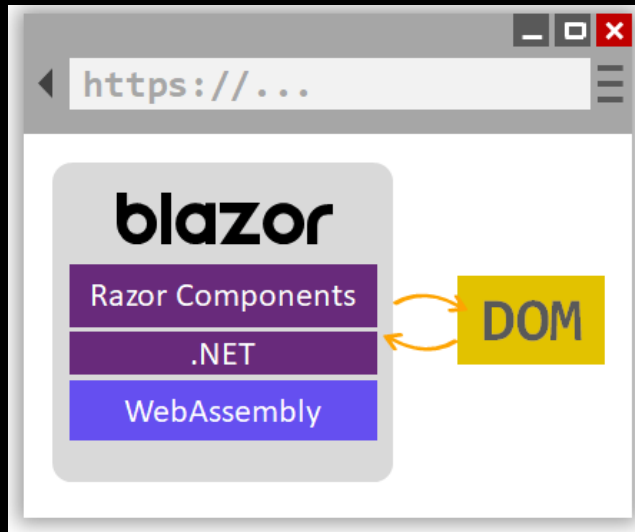

Administrators

Assign policy for apps over end users. Preinstall and pre-pin apps to drive adoption

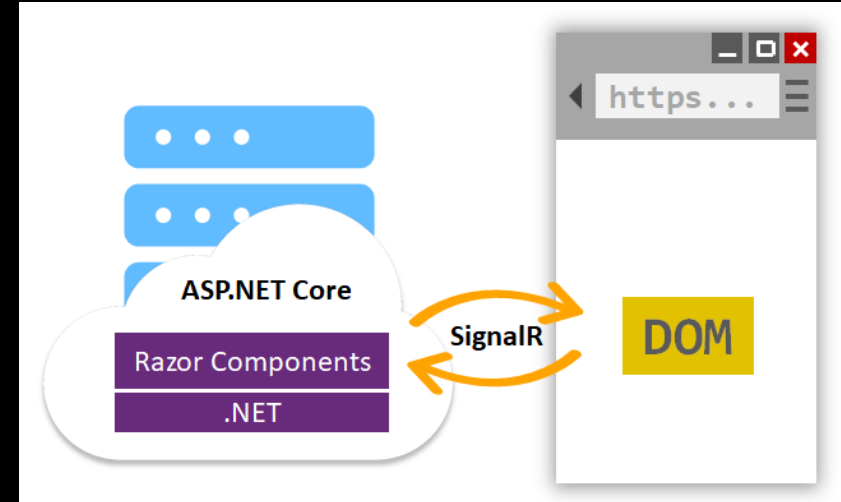

Demo Time ;)
